<b>Open Forum/Parking Lot</b> <i>(add topics to this list throughout the meeting)</i>		
Demand to not work “busy season hours”		
Ensure more conversations are happening surrounding performance		
Dashboards – What to Measure/Track		
Are firms offering the childcare credit and ER Tax free student loan repayments		
Community service hours allotted by year, per team member		
Learning & Development: 150 credit collaborations; CPA exam time during work time; L&D software partners (LumiQ, LCvista, or others that are working well)		
What platforms are firms using for CPE tracking. Who is responsible for loading and tracking CPE data – the employee or the L&D team (please reference 2024 Salary + Benefits Survey – CPE Tracking/page 19). Would like to hear about experience on various platforms from others – what they love and don’t love and how their teams best utilize the system.
