

MENA Regional Conference

Casablanca, Morocco

February 18-20, 2024

Technology Session

Roundtable discussion

Discussion questions:

1. What steps has your firm taken to progress in technology so far?
2. What are the common concerns and challenges in your automation journey, providing solutions and learning resources and how do you address them?
3. Could you share any recent innovations or developments in technology that your firm has been involved in?
4. How does your organization approach and invest in research and development for technological advancements?
5. What initiatives or programs are in place to upskill or reskill your workforce for evolving technological needs?
